Third External Review Draft Integrated Science Assessment for Ozone and Related Photochemical Oxidants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Public Comment Period.

SUMMARY: EPA is announcing the availability of the third external review draft of a document titled, “*Third External Review Draft Integrated Science Assessment for Ozone and Related Photochemical Oxidants*” (EPA/600/R-10/076C). The document was prepared by the National Center for Environmental Assessment (NCEA) within EPA’s Office of Research and Development as part of the review of the National Ambient Air Quality Standards (NAAQS) for ozone.

EPA is releasing this draft document to seek review by the Clean Air Scientific Advisory Committee (CASAC) and the public (meeting date and location to be specified in a separate *Federal Register* notice). The draft document does not represent and should not be construed to represent any final EPA policy, viewpoint, or determination. EPA will consider any public comments submitted in response to this notice when revising the document.

DATES: The public comment period begins, [INSERT DATE PUBLISHED IN THE FEDERAL REGISTER], and ends [INSERT DATE 60 DAYS AFTER DATE PUBLISHED IN THE FEDERAL REGISTER]. Comments must be received on or before [INSERT DATE 60 DAYS AFTER DATE PUBLISHED IN THE FEDERAL REGISTER].

ADDRESSES: The “*Third External Review Draft Integrated Science Assessment for Ozone and Related Photochemical Oxidants*” will be available primarily via the Internet on the National Center for Environmental Assessment’s home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of CD-ROM or paper copies will be available. Contact Ms. Marieka Boyd by phone (919-541-0031), fax (919-541-5078), or e-mail (boyd.marieka@epa.gov) to request either of these, and please provide your name, your mailing address, and the document title, “*Third External Review Draft Integrated Science Assessment for Ozone and Related Photochemical Oxidants*” (EPA/600/R-10/076C) to facilitate processing of your request.

SUPPLEMENTARY INFORMATION:

I. Information About the Document

Section 108 (a) of the Clean Air Act directs the Administrator to identify certain pollutants which, among other things, “cause or contribute to air pollution which may reasonably

be anticipated to endanger public health or welfare” and to issue air quality criteria for them. These air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air....” Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109 (d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also to periodically review and, if appropriate, revise the NAAQS, based on the revised air quality criteria.

Ozone (O₃) is one of six principal (or “criteria”) pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an Integrated Science Assessment (ISA) (formerly called an Air Quality Criteria Document). The ISA, in conjunction with additional technical and policy assessments, provide the scientific basis for EPA decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. The CASAC, an independent science advisory committee whose existence and whose review and advisory functions are mandated by Section 109 (d) (2) of the Clean Air Act, is charged (among other things) with independent scientific review of EPA's air quality criteria.

On September 29, 2008 (73 FR 56581), EPA formally initiated its current review of the air quality criteria for ozone, requesting the submission of recent scientific information on specified topics. A draft of EPA's “Integrated Review Plan for the Ozone National Ambient Air Quality Standards Review” (EPA/452/P-09/001) was made available in September 2009 for public comment and was discussed by the CASAC via a publicly accessible teleconference

consultation on November 13, 2009 (74 FR 54562). In August 2010, EPA held a workshop to discuss, with invited scientific experts, initial draft materials prepared in the development of the ISA (75 FR 42085). The first external review draft ISA for Ozone and Related Photochemical Oxidants was released on March 4, 2011

(<http://cfpub.epa.gov/ncea/isa/recordisplay.cfm?deid=217463>). The CASAC panel met at a public meeting on May 19, 2011, to review the draft ISA (76 FR 23809). Subsequently, on August 10, 2011, the CASAC panel provided a consensus letter for their review to the Administrator of the EPA

The second external review draft ISA for Ozone and Related Photochemical Oxidants was released on September 30, 2011 (<http://cfpub.epa.gov/ncea/isa/recordisplay.cfm?deid=226363>). The CASAC panel met at a public meeting on January 9, 2012, to review the draft ISA (76 FR 76725). Subsequently, on March 13, 2012, the CASAC panel provided a consensus letter for their review to the Administrator of the EPA

The third external review draft ISA for Ozone and Related Photochemical Oxidants will be discussed at a public meeting for review by CASAC, and public comments received will be provided to the CASAC review panel. A future *Federal Register* notice will inform the public of the exact date and time of that CASAC meeting.
